PUBLIC HEALTH EXCHANGE INTERNSHIP FORM (SCOPH EXCHANGE Internship Form) (IFMSA-China)

General Information

Name of the Internship's Project:

Healthy management: the spatial distribution of physical activity and obesity; the impact of the built environment on health behaviors.

Name and address of the department:

Name: School of Health Sciences, Wuhan University

Address: No. 115, Donghu Road, Wuhan, Hubei, China

Type of the Department:

- Governmental Institute Non-Governmental Organization (NGO)
 Hospital/ Medical Institute Other, please mention

Head of the department:

Lu Ma

Tutor(s): Yuliang Zou

E-mail: zouyl@whu.edu.cn

Phone: +86 18971600710

Description of the Internship

(min. 3 lines, max. 10 lines)

Problem Statement: Please describe the main issue(s) addressed during the internship:

The health of individuals and populations is affected by the environment in which they live. For example, obesity is a major public health issue, while built environment is one of the important influence factors for obesity reported in recent epidemiological literature.

During the internship, the student will do some data analysis and paper writing work which concentrate on the impact of the built environment on obesity and physical activity.

What is the main goal(s) of the Internship?

IFMSA

International Federation of
Medical Students' Associations

1. To understand the basic situation of China's cultural and social development.
2. Further improve the ability of data analysis, in particular with regard to the spatial distribution of disease and health conditions.
3. To improve academic writing skills.

What are the objectives of the Internship?

1. Understanding the learning status and atmosphere of Chinese students;
2. Participating in research groups and enlarge student knowledge;
3. Mastering basic analysis methods for the spatial distribution of disease using SPSS, SAS, and ArcGIS;
4. Finishing writing a new paper of the original study.

What is the expected outcome(s) of the Internship?

1. Mastering basic methods for the analysis of disease spatial distribution.
2. One manuscript is finished by the end of the internship period.

The impact will be assessed in the student's report at the end of his internship.

Type of the Internship:

- Advocacy Campaigning and Education Research Clinical Work
 Other, please mention

Exchange Student's Role:

Will there be any theoretical teaching provided (preliminary reading, lectures, courses, seminars)?

We will provide weekly seminars and literature reading.

What is the role of the student and what is expected from him/her during the exchange?
(*minimum 3 lines*)

As a member of our research group, the student can get along well with other students, learn useful knowledge and skills, and complete various work with us during the internship.

What should be the outcome of the student's participation on the exchange Internship (paper, poster etc)?

Statistical analysis, poster making and paper writing.

Will you be providing performance based letter of recommendation?

- Yes No

IFMSA

International Federation of
Medical Students' Associations

What are the practical skills and knowledge the student will acquire during the exchange program?

We prefer the student with background, knowledge and skills of epidemiology, statistics, and health geography. In addition, the student can learn to solve problems with professional knowledge.
